# Fafard Organic Formulas

Fafard uses only approved organic materials in their mixes including Canadian Sphagnum Peat Moss, Aged Pine Bark, Perlite, Vermiculite, Dolomitic Limestone, Gypsum, and Perdue® Organic Fertilizer. Fafard Organic Formula (FOF) products do not contain any synthetic materials such as pesticides, chemical fertilizers, or water conditioners.

The FOF product line is comprised of totally organic products. These special blends provide customers the organic solution to gardening and growing needs. While all Fafard products are almost 100% organic, the FOF products do not contain the synthetic wetting agent or fertilizer that most of its other mixes do.

Its FOF's are organic versions of its already recognized and valued professional soilless mix products.
