Solo 4 gal Back Pack Sprayer

Since its introduction to the US market in 1964, Solo's popular 425® backpack sprayer has been the standard by which all backpack sprayers are measured... and for good reason!

- High-density polyethylene tank with ultra-violet inhibitors allows for unmatched durability and ultra-violet protection.
- Large 4.25" opening for easy filling and cleaning.
- Shut-off valve and wand with an overall length of 28" for hard-to-reach places.
- 4' high-pressure hose.
- Padded shoulder straps for greater comfort.
- Chemically resistant Viton® seals insure long life and durability.
- With its connecting rod-activated piston pump, the 425® is capable of producing a wide pressure range of up to 90 psi, and is capable of performing virtually every spraying task.
- Easily and effectively handles disinfectants, fertilizers, herbicides, pesticides, and formulations for tree, shrub and plant protection and wood and concrete finishing and treatments.

solo®

Solo 2 gal Handheld Sprayer

- Large 4.5" filler opening makes filling and clean up safe and easy.
- Chemically resistant Viton® seals throughout.
- High density polyethylene tanks with ultra-violet inhibitors, which allow for unmatched durability and ultra-violet protection.
- Automatic pressure relief valve releases excess pressure at 45 psi and may be used to release pressure as desired.
- Solo handheld sprayers can reach full pressure with about half the pumping required by other brands.
- Shut-off valve and wand overall length is 28" for hard to reach places.
- Four feet of high pressure hose for hard to reach places.
- Includes an assortment of four nozzles.
- Best for steady spraying under severe conditions.

BP-4 Rechargeable Backpack Sprayer

The Dramm BP-4 is a rechargeable, battery-powered sprayer that fits comfortably on your back. Operating at a maximum pressure of 140 psi, the BP-4 offers an adjustable pressure knob for flexibility in spraying. Using the high-pressure setting, the BP-4 atomizes spray solutions better than other backpack sprayers, ensuring excellent coverage. The battery-operated pump ensures even flow rates, perfect for even application of greenhouse chemicals. The BP-4 can run for up to 2 hours on a full charge and recharges overnight.

Shipping Weight: 102 lbs.

CHEMDOSE™ 2

The Dramm CD2 Chemdose is the next generation in precision dosing technology. Designed for use with a hydraulic sprayer or a chemical injector, the CD2 precisely measures each dose from any source below 100 psi and applies it directly to the pot. Eliminating the limitations of power and hose-length constraints, the CD2 is powered by a rechargeable battery.

The Chemdose 2 can either be worn or mounted on a small cart, making the unit extremely portable. Perfect for the application of systemic insecticides or plant growth regulators.

ITEM #	PRICE
41-1196	\$3,045.00

Fingertip control
Offer single shot or interval based doses

Digital control
Easy to use and program

Multiple wand choices
Extends reach across the bench, on the ground or up to hanging baskets.

Rechargeable battery
Use all day without recharging

High pressure solenoid valve
Accurately controls dose flow up to 100 psi

3/4" hose thread inlet
Connects garden hose to injector or to hydraulic sprayer with included adaptor

Comfort strap
Reduces fatigue

Precision flow meter
Doses accurately with any source

Battery maintainer
Charges the CD2 overnight without over charging

200 mesh filter
Protects the unit from clogging

Microfit Herbi Standard

- Lightweight, portable band sprayer
- Cleanup, border & strip spraying
- Low volume, CDA application
- Applies most chemical formulations
- Minimizes spray drift
- Battery powered; no pumping

ITEM #	PRICE
